

The Alliance for Historic Landscape Preservation

Dedicated to the preservation and conservation of historic landscapes in all their variety, established 1978

Who We Are

The Alliance for Historic Landscape Preservation has been an interdisciplinary professional organization providing a forum for communication and exchange of information among its members. For over 30 years we have been dedicated to the preservation and conservation of historic and cultural landscapes in all their variety, including formal gardens, public parks, rural expanses, and urban landscapes with their related structures.

Benefits of Membership

As a member of the Alliance you will be connected with a broad network of individuals who share your interest in this field. Members receive a newsletter twice a year containing updates on activity in the field of historic preservation as well as news from individual members. In addition, members receive email news flashes, information on special events and a member directory. Each member of the Alliance is also invited to an annual meeting held in a culturally rich location.

Annual Meeting

Our annual meeting provides the primary opportunity for Alliance members to gather and exchange information and views with professional colleagues and friends in a casual atmosphere. The annual meetings are informal with a themed program that spotlights the host community's environment through tours and presentations by participants and invited speakers.

Member Involvement

The members of the Alliance are a diverse group of professionals and students from across the US and Canada. Each member brings to the Alliance a unique view and approach to historic landscape preservation. Generally our members are involved in:

- ✧ Preparation of heritage landscape inventories and assessments
- ✧ Historic cemetery and battlefield conservation
- ✧ Study of industrial, agricultural and heritage conservation districts
- ✧ Development of vegetation management strategies and study of native plant communities
- ✧ Assessing source of material for historic structures
- ✧ Writing of histories and assessments of landscapes and their creators and designers

New Members are Always Welcome

The Alliance is continually accepting new membership from professionals and students in the US and Canada in a wide range of disciplines including: landscape architects, architects, historians, planners, archaeologists and cultural geographers in private practice, public service and academia.

Become a Member Today
